

RAVELL®

SIDE EXTENSION TV LIFT WBT-2

The RAVELL® SIDE EXTENSION TV LIFT extends TV/Monitor placed inside the wall, furniture or special designed space to a viewing position. Moves it back to hiding position inside the enclosure. Increases the aesthetics of every room. It makes the TV/Monitor invisible during the standby mode. Additionally side extension mechanism protects the unit before unauthorized access.

APPLIANCE:

- Dedicated, in STANDARD version to TV/Monitors – diagonal screen 75"
- Max extension: 1750mm
- Max lifting weight: 50 kg (including covering ceiling panel)

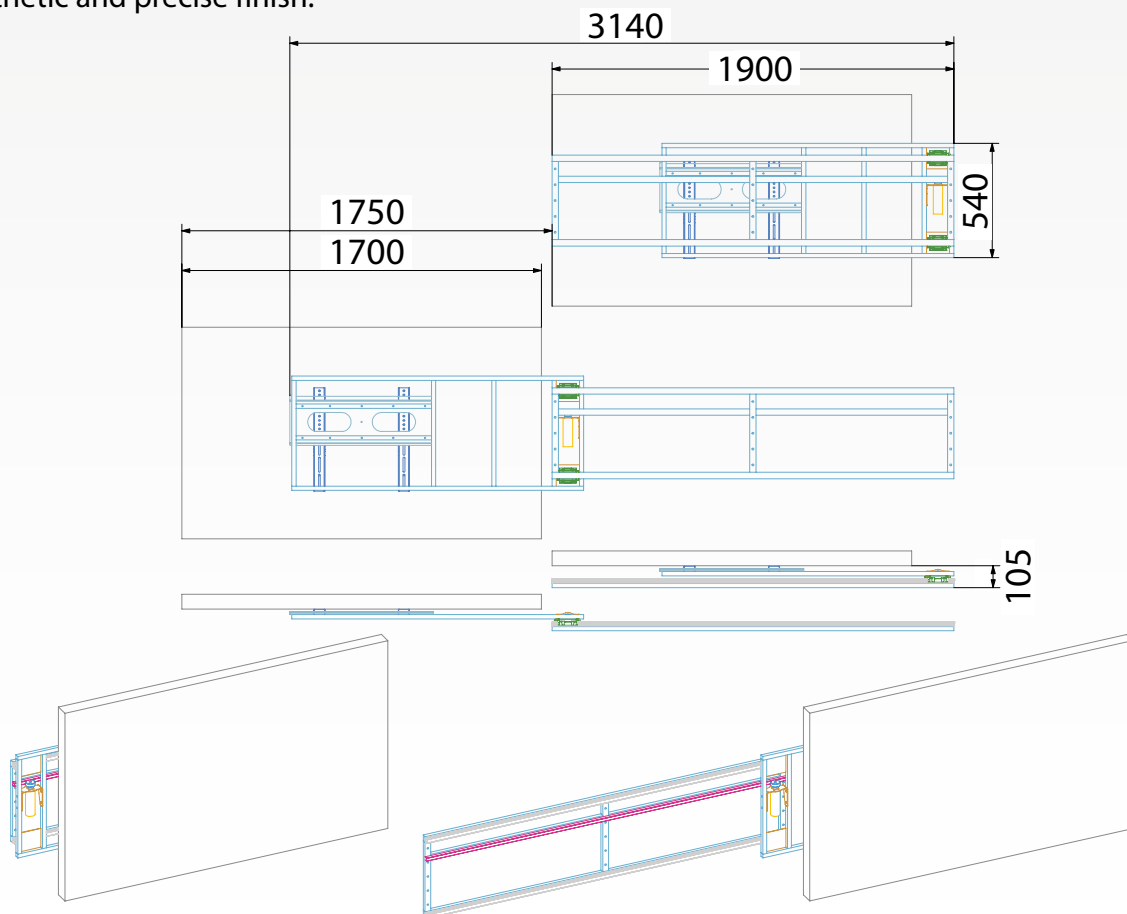

SIDE EXTENSION TV LIFT WBT-2

ADDITIONAL ACCESSORIES:

- montage distances to adapt desired measurement,
- remote control (wireless, IR, RF or RS232).

MAIN FEATURES:

- lift construction based on a vertical frame system guided by a precision mechanism
- side movement caused by a slow-speed, precision planetary gear
- control of computer-based control panels
- 100% repeatability
- quiet, smoothly running mechanism
- safety and precision guaranteed by the limit-switch system
- easy to operate
- reliable and functional construction made of high quality components
- finish with powder paint in black, white, silver (on request, you can choose another color from RAL palette),
- aesthetic and precise finish.

Dimensions	Max range	Max lifting weight	Unit weight	Rated voltage/frequency
1900x540x120 mm	1750 mm	50 kg	30 kg	230 V/50 Hz
